

# Training and certification for data protection officer.

Enchanted Kingdom is the first and only theme park of the Philippines. With the launch of the Data Privacy Act, it is important to take extra caution in data protection. TÜV Rheinland Academy was deployed to provide the legally compliant training of the data protection officer.

## Data and facts

Client	Enchanted Kingdom Inc.
Period	May 2018
Site	Philippines
Services	Training and certification

## INITIAL SITUATION AND REQUIREMENTS

The protection of personal data is becoming increasingly important for companies worldwide. This is also the aim of a law like the Data Privacy Act in the Philippines. As soon as customer data is processed automatically, a data protection officer must be hired. In order to implement data protection processes and systems in an organization in compliance with the law, reliable background knowledge is required. In addition, there is the need to sensitize employees, who often underestimate the extent and consequences of attacks on personal data.

## SOLUTIONS, RESULTS

In a five-day intensive course, the local data protection officer received training from TÜV Rheinland Academy and certification from the independent personnel certification body PersCert TÜV. We were chosen on the basis of instructor Herrn Dondi Mapa, who is known in the IT industry as a former deputy commissioner at the National Data Protection Commission (NPC).
